**Mr. Michael Hain
Nittany Media, Inc.
18 Juniata Street
Lewistown, PA 17044**

Dear Michael:

Please accept this letter as one of profound gratitude for the excellent technology collaboration that has been extended by Nittany Media, Inc. to the Juniata County School District since June 1996. Nittany Media, Inc. serves as an exemplary model of a local business that has demonstrated community involvement and support for public schools.

Through the technological advancements of the cable service offered by your company, all twelve schools of the Juniata County School District have had the advantage of access to cable television and high-speed internet service in all classrooms and local area networks throughout the district since the Summer of 1997. And, all at no cost to the district!! This level of generosity is rare and very much appreciated.

Because of your extensive contributions to the technological infrastructure of the school district, instructional opportunities have been made available to students in a very efficient, effective, and state-of-the-art manner. These contributions included hardware, software, wiring, and connection services. Receiving internet access through cable connections has allowed the schools of Juniata County to be very much ahead of the curve in providing educational content and research capabilities.

Michael, it has been an honor to become associated with you, your parents, and the staff of Nittany Media, Inc. Many hundreds of students have greatly benefited from educational opportunities that were advanced and enhanced by the uncommonly benevolent philosophy and business style of Nittany Media, Inc. On their behalf and my own, I say THANK YOU.

Sincerely yours,

**Marsha A. Sault, D.Ed.
Former Superintendent
Juniata County School District**
